Annexure -1

1. Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention on an accrual basis of accounting and in accordance with the applicable Accounting Standards as prescribed under the Companies (Accounting Standards) Rules, 2021 and the relevant provisions of the Companies Act, 2013.

2. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively

3. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured:

- Sale of goods is recognized on transfer of significant risks and rewards of ownership.
- Income from services is recognized as per the terms of the contract.

~~Interest income is recognized on a time proportion basis~~

4. Property, Plant and Equipment (PPE)

Tangible fixed assets are stated at cost, net of accumulated depreciation and impairment losses, if any. The cost comprises the purchase price and directly attributable costs for bringing the asset to its working condition.

Depreciation is provided on a [Straight Line Method / Written Down Value Method] as per the ~~useful life specified in Schedule II to the Companies Act, 2013~~

5. Inventories

Inventories are valued at the lower of cost or net realizable value. Cost of inventories is determined on FIFO basis. Cost includes all expenses incurred in bringing the inventory to its present location and condition

6. Taxes on Income

*Current tax is determined based on the taxable income for the year as per applicable income tax laws.

*Deferred tax is recognized on timing differences between accounting and taxable income using the tax rates and laws that have been enacted or substantively enacted as of the balance sheet date.

7. Provisions and Contingencies

A provision is recognized when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation. Contingent liabilities are disclosed unless the possibility of an outflow is remote.
